

DESCALING DETERGENT FOR THE CLEANING AND HYGIENE OF TOILETS

- Quickly eliminates limescale deposits.
- Clings to vertical surfaces.
- Releases a pleasant almond scent.

SUGGESTIONS

Close the toilet lid to prevent acid vapours from dissipating into the environment and keep the room ventilated.
As with all acidic products, to prevent damage, avoid contact with marble and limestone surfaces.
Do not use on faucets or steel.

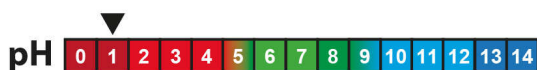

DESCRIPTION

One of the biggest problems encountered with toilets are the traces of rust and scale found on fixtures.
DS WC is a descaling detergent for the cleaning and hygiene of toilets and urinals, formulated with a base of inhibited inorganic acids. The viscous formula allows the active ingredients to cling evenly to the vertical walls of the bowl and urinals, ensuring complete cleaning and hygiene.
Leaves behind a fresh and pleasant scent after use.

DESCALING DETERGENT FOR THE CLEANING AND HYGIENE OF TOILETS

PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance	Viscous liquid
Colour	Green
Odour	Almond
Specific weight	1.040 ± 0.01 g/ml
Solubility in water	Complete at any ratio
pH	1
Chemical properties	Cationic

Moderate

AVAILABLE PACKAGING

Carton with 12 bottles of 750 ml - 016DSMA7512

USE MODALITY

Apply evenly under the rim and to the walls of the toilet.

For heavy build-up of encrustations, leave on for a minimum of two hours to all night. Repeat the treatment if necessary.

For frequent use or light encrustations, leave on for 10 minutes.

Finally, flush with water to rinse.

The product maintains its properties when properly stored in an unopened package, in a cool and dry place away from light and heat sources, at a temperature between 5°C and 35°C.
