

CARPET SHAMPOO

- Foaming product for the deep cleaning of carpets.
- Penetrates deep down, bringing dirt to the surface.
- Restores the natural tone of colours without leaving residue.

SUGGESTIONS

At temperatures close to zero the product may become cloudy. Raised to temperatures of over 5°C, this effect disappears.

DESCRIPTION

The cleaning of surfaces in fabric can prove to be extremely difficult if not carried out with specific products. M30 LAVAMOQUETTE is a foaming product, highly active, for the deep-cleaning of carpets with the method of wet and/or dry shampooing.

It penetrates to the root of fibres, removing the dirt and bringing it to the surface, allowing it to be easily removed with a vacuum. It restores the natural tone of colours without leaving residue. M30 LAVAMOQUETTE forms a protective film around the fibres prolonging the period of cleanliness. Ideal for carpets, rugs and natural flooring.

CARPET SHAMPOO
