CARWASH & CAR CARE

DETERGENT FOR ALLOY AND NORMAL CAR RIMS

- Removes residues from brake linings and brake pads.
- Removes dirt caused by smog.
- Does not irreparably damage the rims.

SUGGESTIONS

Spray uniformly DETERGENTE CERCHI on the entire rim. Wait for a minute, then rinse with high pressure. It is not recommended to use the product on motorcycle rims.

DESCRIPTION

DETERGENTE CERCHI is a product formulated for the complete removal of residues from alloy rims, caused by brake linings and brake pads, as well as by dirt from smog and traffic dirt. It does not contain acidic components which, given the particular conditions and after prolonged use, can irreparably damage the rims.

DETERGENTE CERCHI

DETERGENT FOR ALLOY AND NORMAL CAR RIMS

PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance	Clear liquid
Colour	Light blue
Odour	Weak characteristic
Specific weight	1.010 ± 0.01 g/ml
Solubility in water	Complete in every ratio
pH	12.5 ± 0.5
Chemical character	Not ionic - cationic

USE MODALITY

Ready-to-use product.

Spray evenly over the entire surface of the rim, allow 1 or 2 minutes to act, wipe with a sponge and rinse.

Use a brush to help you in places that are difficult to access due to the special rim profile.

The product is supplied in 750 ml bottles equipped with a nebulizer.

FOAMING POWER

Moderate

AVAILABLE PACKAGING

Box of 12 bottles - each 750ml - 016DECECP12
